

# Owl Pellets

A \_\_\_\_\_ is a bird of prey that catches its food with its talons.

What are some other types of raptors? \_\_\_\_\_

What adaptations do Raptors have to hunt their prey?  
\_\_\_\_\_

Name a few animals that fit into this Food Web:

Hypothesis: Based on the looks of your owl pellet what kind of animal remains do you think you will find?  
\_\_\_\_\_

Draw and identify the bones that you found in your owl pellet in the box below.

Conclusion: Do the results support your hypothesis? \_\_\_\_\_

If no, what animal did the remains come from? \_\_\_\_\_
